

Personalized Care Management Solutions for MEBFC Member Funds

Case Management and Utilization Management Services

With an experienced team of Conifer Personal Health Nurses (PHNs), we identify all the risks, tailor utilization management to your specific needs, and use data-driven insights from our proprietary risk stratification platform to reduce costs and improve health outcomes, one member at a time.

Our commitment is to enhance labor member satisfaction with their health benefits through personalized care management, ensuring consistent, individualized, and cost-effective care that directly impacts member engagement and health outcomes.

Our registered nurses will engage your eligible employees and their dependents on a personal level and empower them to take charge of their health.

Conifer serves over 900,000 members in the union and Taft-Hartley space ranging from some of the largest national labor groups in the country to Local Funds in many markets.

Unique Benefits

- **Client-Designated Team:** PHNs are committed to each Member Fund and Account Managers with labor experience provide quick responses to inquiries.
- **Tailored to each Member Fund:** PHNs are trained to understand unique labor group dynamics, including benefit activation, member eligibility, and group nuances, ensuring consistent, accurate representation of the Fund.
- **Robust Reporting:** Aggregation of data across multiple sources to target members effectively. Consistent and transparent reporting on Conifer service and member health trends.
- **Fee Structure:** As valued members of the MEBFC, Member Funds receive exclusive pricing for Case Management and Utilization Management services.
